**i THE CURRENT SITUATIONS**

**ii VISION AND MISSION**

**iii HOW WE WORK?**

**iv ROAD MAP**

**v TECHNOLOGY**

**vi TOKEN FIFO (APPFI)**

**vii TOKEN METRIC & DISTRIBUTION**

**viii LEGALITIES**

With the rapid development of crypto, there are a lot of new technology trends that are integrated with crypto, namely play to earn games, metaverse, web3, and NFT.

### # The potential of Web 3.0

**Web 3 is the upgraded version of Web 1.0 and Web 2.0. Web 3.0 refers to the upcoming third generation of the internet in which websites and apps will be able to process information in a smart human-like manner using technologies such as machine learning (ML), Big Data, decentralized ledger technology (DLT), and so on.**

### #The potential of Metaverse

**Metaverse is a new trend in the World's technology. It is a technology hybrid that combines virtual reality, augmented reality, and video to allow users to "live" within a digital universe. With Metaverse, people can be able to socialize, worship and work in environments where the boundaries between environments and between the digital and physical are permeable.**

### #The potential of NFT

**NFTs, also called non-fungible tokens, have dominated 2021. Considered as a new way to determine ownership of digital property using a blockchain ledger, NFTs are increasingly popular in the art and collectibles scenes. The ability to digitally represent a unique asset and have immutable proof of ownership appealed to users, resulting in the exponential growth of this space.**

**NFTs, on the other hand, have far more potential than bizarre digital artworks. NFTs are also used to buy digital land in virtual worlds and to own, license, and publish next-generation music. Some analysts believe that in the future, NFTs will provide access to special sales or limited-edition products.**

## Vision And Mission

**We desire to create an interesting and attractive playground for all users, including those who have experienced crypto and non-crypto.**

- **Become the stable and transparent crypto ecosystem that contains the most outstanding evolutions in Technology and Blockchain.**
- **Become a leading online metaverse communication app and play to earn game platform on Web 3.0**
- **Become a popular NFT marketplace for everyone to buy and sell NFTs to get profits.**

**Our mission is to become the leading online communication and entertainment platform using web3 for users. We create sustainable value for our customers.**

**We are working to create an alternative, scalable, secure, transparent, efficient, inclusive and equitable financial system for all. We create a crypto ecosystem(c2c) that includes: social networks, NFT marketplace and gaming. All of them use a native token - FIFO. Those who get services from FIA-FORY need to pay FIFO. In return, they can also earn FIFO when playing FIFO games and FIA-FORY apps.**

## HOW WE WORK?

**We develop the project based on real products and real users. All of our three products offer great UX in terms of interface and quality and offer users chances to create high incomes.**

### **# Play to earn**

**Users need to pay FIFO When using our products. However, they can quickly get their money back by playing our games. Besides, with the referral program of FIFOgames, they can get some commission from other accounts created with their referral link/ code.**

### **#Use to earn**

**Users can use our products as a form of entertainment and releasing stress or satisfying their hobbies.**

**If you purchase/ or create your own NFTs and use them on our Metaverse app and NFT marketplace, you can get paid on our platform.**

**For example, if you buy an NFT on our NFT marketplace at \$100, you can get back \$10 each day based on our mechanism. So you can get all money invested during 10 days.**

**Besides, during the time you own and use the NFT, its value will be increased accordingly with the tasks you do on the Metaverse app and the NFT marketplace. That is fantastic, right?**

**FIA-FORY is a transparent crypto ecosystem where users can play, contact, work to create real value and develop together.**

### # PHASE 1

- **Setup the technology blockchain and business model**
- **Launch Website**
- **Smart Contract**
- Develop NFTS
- **KYC**
- **Launch Token**

### # PHASE 2

- **Plan to build the metaverse messenger app that includes audio calling and video calling.**
- **Release Tabgames version 2 that is upgraded with web 3.0**
- **Use Web3 for login and create metaverse avatar by AI**
- **Staking Platform**
- CMC/CGListing

### # PHASE 3

- **CMC/CGListing**
- **Expand P2E**
- **Partnerships**
- **MARKETING**

### # PHASE 4

- **FIFODEX**
- **MorePartnerships**
- **recruit Major Brands**
- top 100 CMC

**FIA-FORY is built based on the technology of Binance Chain blockchain with the most outstanding features: fastest and cheapest transaction speed.**

### **# BINANCE CHAIN**

- **Binance Smart Chain (“BSC”) is an Ethereum-compatible blockchain that offers the same smart contract functionality with much lower transaction fees.**
- **The main advantage of BSC is that it allows users to benefit from fast transaction speeds despite being somewhat centralized.**
- **BSC has experienced significant user growth since January 2021, thanks to its global reach, generous accelerator fund, and ease of use.**

**We develop the project based on real products and real users. All of our three products offer great UX in terms of interface and quality and offer users chances to create high incomes.**

### **# Play to earn**

**Users need to pay FIF0 When using our products. However, they can quickly get their money back by playing our games. Besides, with the referral program of FIF0games, they can get some commission from other accounts created with their referral link/ code.**

### **#Use to earn**

**Users can use our products as a form of entertainment and releasing stress or satisfying their hobbies.**

**If you purchase/ or create your own NFTs and use them on our Metaverse app and NFT marketplace, you can get paid on our platform.**

**For example, if you buy an NFT on our NFT marketplace at \$100, you can get back \$10 each day based on our mechanism. So you can get all money invested during 10 days.**

**Besides, during the time you own and use the NFT, its value will be increased accordingly with the tasks you do on the Metaverse app and the NFT marketplace. That is fantastic, right?**

**FIA-FORY is a transparent crypto ecosystem where users can play, contact, work to create real value and develop together.**

## TOKEN METRIC & DISTRIBUTION

FIA-FORY is built based on the technology of Binance Chain blockchain with the most outstanding features: fastest and cheapest transaction speed.

**Token name : FIAFORY**

**Unit name : FIFO**

**Token type : BEP-20 issued on FIFOToken**

**DECIMAL : 18**

**Total supply: 4,500,000,000**

**users need tab for payment online in mobile apps and games**

## TOKEN METRIC & DISTRIBUTION

FIA-FORY is built based on the technology of Binance Chain blockchain with the most outstanding features: fastest and cheapest transaction speed.

\$FIFO

We, at FIFO Token, would like to thank you for taking the time to research Our project and would like to inform Our readers that this white paper is not to be taken as an attempt to influence any of its readers to invest in any cryptocurrencies, including \$FIFO itself. We produced this white paper in order to provide you with information about this project only.

Any possible investments in cryptocurrencies should be considered risky due to the immense volatility traditionally seen in most cryptocurrencies. Should you choose to invest in \$FIFO, you agree to accept full responsibility for your own investment, acknowledging that crypto is highly volatile and that price action cannot be determined by the team. You also agree that the team is not in any way responsible for your own investment

By perusing this white paper, you acknowledge and accept all of the above.
